1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.”

Cancellation Policy

STUDENT'S RIGHT TO CANCEL: You (student) have the right to cancel the enrollment agreement and obtain a refund of charges paid (as outlined on the enrollment agreement) through attendance at the first class session, or the seventh day after registration, whichever is later.

You (student) have the right to withdraw from the course at any time.

All requests for cancellation and/or withdraw must be in writing and submitted to: Massage Center Attn: Helle Leap 171 E.

Thousand Oaks Blvd., #206 Thousand Oaks, Ca. 91360

Refund Policy

If the amount that you have paid is more than the amount that you owe for the time attended, a refund will be made within 30 days of withdrawal. If the amount you owe is more than the amount you have already paid you will have to make arrangements to pay the amount owed.

*Attendance in class is assumed up until the day written notification is received even if the student is not physically in class.

A pro rata refund pursuant to section 94919(c) or 94920(d) or 94927 of the Code shall be no less than the total amount owed by the student for the portion of the educational program provided subtracted from the amount paid by the student, calculated as follows:

The amount owed equals the daily charge for the program (total institutional charge, divided by the number of days or hours in the program), multiplied by the number of days student attended, or was scheduled to attend, prior to withdrawal.

Refund Example

A student signs up for the 550 Hour Silver Massage Therapist Program and pays \$4,500 in tuition.

The hourly charge for the program is (\$4,500 divided by 550) \$8.18 / hour.

If the student attended 150 hours of class and was signed up for 130 hours of Elective classes = total 280 hours. (280 hours X \$8.18 = \$2290.40)

The student would receive a refund of (\$4,500 - \$2290.40) = \$2,209.60

Grading Policy

Grading Standards:

90-100% A Average
80-89% B Average
70-79% C Average
60-69% D Average
59% or less F Average

Each class has required tests which determine these grades. A cumulative grade point average of "C" or better is required for students to graduate successfully.

If, after taking the midterm or final, a student's average falls below a "C", the student will be given two weeks to write out the midterm or final review, study this, and retake the appropriate test within two weeks. After the midterm or final is re-taken and the student's average is still below a "C", the course must be repeated the next time it is offered. If the student is unable to maintain a "C" average after repeating the course, graduation from the program will be affected.

Re-registration will be accepted if the student can demonstrate that conditions causing the low grade point average have been resolved.

If a student does not complete the program as scheduled, the letter "I" will be placed on the student's transcript to designate "incomplete". An "I" grade becomes a grade "F" if the student does not complete required course work within six months.

School records: The Massage Center will keep all school and student records for five years from the student's date of completion or withdrawal. Transcripts are retained permanently.

Attendance Policy

We expect you to attend all classes as scheduled and require that you make-up any class hours missed. You will be required to sign in at the beginning of every class and sign out at the completion of every class.

If a problem remains unresolved, the individual should submit a formal complaint to a Manager as early as possible.
